Q: `VideoView.setVisibility` is not working In my app there is a `VideoView` widget, whose visibility is set to `GONE` by default. I want to set the visibility of the widget to `VISIBLE` after a button in the layout of the activity is clicked. The problem is that the visibility does not change to `VISIBLE` in the code. Here is the code:

```
public void onClick(View view) {
    VideoView video = (VideoView)findViewById(R.id.my_video);
    if(video == null) { Log.w("VideoView", "Null value"); }
    else {
```
